- Do you offer a certificate, diploma or degree for study in my area of interest?
- What courses do I need at the 30 level to get admitted to this program? Do I start in September or January? Is it a competitive program? What is the competitive average for admission?
- Are there any non-academic requirements, such as emergency or standard first aid training, age restriction, etc.?
- I'm graduating this year, how soon can I apply?
- How much are the tuition and other compulsory fees?
- Are there any scholarships I can apply for based on my marks? Based on my community leadership skills? Based on my athletic experience?
